Judge Kollar Kotelly RE: U.S. vs. Microsoft Your Honor The U.S. Government has no business going after Microsoft in the first place - Bill Gates started in a garage and made it work - his whining competitors should get over it. Please let Microsoft get back to business. One thing about Microsoft is that it is a U.S. company - please free it from U.S. and state lawsuits. We need good products to compete in the world market. Thank you Sir. Sincerely H. David Young 7165 E. St. Rte. 41 Troy OH 45373-9020 937-335-6422
